

The Blue Glass Pebble Company

Transform the ordinary into the extraordinary

The most stunningly vibrant pool finish on the market

It is simply amazing how the addition of glass pebble finish will transform an ordinary pool into a fantastic pool. It's even more amazing how not using a brilliant, vibrant interior like one from The Blue Glass Pebble Company will leave an otherwise nice pool looking decidedly plain.

As you can see from the two comparison photos below, here are two pools of similar size, shape and monetary value. One has used a plain pebble interior and one has used a superb The Blue Glass Pebble Company glass pebble finish.

We'll leave you to "guess" which is which! As you can see, using a luxurious glass pebble finish is an affordable way to completely transform the aesthetics of your pool into a stunning masterpiece.

Your pool's finish will make or break the overall look and image of your pool and backyard. Don't jeopardise one of the most significant investments of your life. Transform your Commodore into a Ferrari with the most stunningly vibrant pool finish on the market.

Every customer of The Blue Glass Pebble

Company receives a free luxury gift and Certificate of Authenticity, both redeemable through their website. Contact them today for a free brochure and samples.
